Brown, CEO, directed the Board's attention to the Airport Project Manager Summary ("APMS"), found on pages 1-13 in the August 24, 2020 Regular Board Meeting Packet, and distributed to the Board before the August 24, 2020 Regular Board Meeting. Mr. Brown informed the Board of the following changes made to the APMS:

1. The “Schedule Completion Percentage” represents the completion schedule; if a Project goes beyond the scheduled date of completion, the APMS will continue to show 99% completion. He explained that this number does not represent the amount of work completed. Instead, the number represents the percentage of time elapsed as to the original time period established for completing the Project.

2. The top right of the APMS has been changed to say “Percentage Paid” to provide a clear explanation of what the number represents.

In response to Commissioner LTC(R) Wright’s inquiry as to the percentage of work completed, Mr. Brown informed the Board that Staff would attempt to include a number as to the percentage of work completed. However, the percentage of work completed is subjective and difficult to pinpoint.

After further discussion, Mr. Brown informed the Board that Staff would come up with a chart to present to the Board regarding showing the percentage of work completed.

In response to Chair Harris’s next inquiry, Mr. Brown informed the Board that the two percent
