2. **Project Management Support Services, JMAA: Authorization to Extend the Professional Services Agreement; Approval of the Total Contract Amount to Remain at the Previous Board Approved Amount; and Approval of a Contract Term Extension (Kimley-Horn and Associates, Inc.)**

The Board considered the MOTION by Commissioner Reed, seconded by Commissioner Chairman Pastor Henley, to: (i) authorize JMAAA Staff to exercise the option to extend the existing Professional Services Agreement (“Agreement”) with Kimley-Horn and Associates, Inc. (“Kimley-Horn”), a North Carolina Corporation with offices in Ridgeland, Mississippi, which provides for Project Management Support Services (“PMSS”) for projects identified in the Jackson Municipal Airport Authority’s (“JMAA”) Capital Improvement Program (“CIP”) and JMAA’s Strategic Plan 2021 (“Strategic Plan”); and (ii) approve the contract term extension of two (2) years through November 7, 2020.

Vice Chairman Harris expressed concerns about the percentage of the proposed work assignment to entities performing the services. She asked how the environmental services needed for the projects amounted to only two percent (2%) of the total purposed work performed pursuant to the contract.
In response, Kimley-Horn’s representative informed the Board that the percentage of work provided was based on the projects being managed. Further, he stated that the percentage included in the Board Memo is the minimum amount of environmental services anticipated. He added that Kimley-Horn will review the projects and verify if there is a need for additional environmental services.

The Board held further discussion concerning the contract percentage amounts related to the service providers involved in the project management contract.

Commissioner Reed then moved to amend her previous motion to include in the project management agreement that a minimum of ten percent (10%) of the contract value be allotted to the environmental aspect of the projects managed by Kimley-Horn. Vice Chairman Harris seconded the motion.

The Board then held further discussion concerning Vice Chairman Harris’ concern about the low percentage of work allocated to the various service providers involved in the contract.

After discussion, Commissioner Reed withdrew her Amended Motion. Then, the Board pursuant to the original motion resolved the below Resolution.

Next, the Board returned to the Fiscal Year 2019 Operating and Maintenance Budget and Fiscal Year 2019 Capital Budget Agenda topics. The Board Memo regarding 2019 Budgets is located on Pages 43 and 44 of the Packet.

Chairman Pastor Henley addressed the Board and referenced the inclusion of an in-house legal department/counsel in JMAA’s FY2019 O&M Budget. He stated that the Board should consider delaying authorizing the budget for an in-house legal department as the Board does not have enough information as to whom the in-house counsel would report to, the in-house counsel’s duties and responsibilities, as well as the delegating of duties between the in-house counsel and JMAA Board Counsel.

In response, Vice Chairman Commissioner Harris stated that the Board previously decided that the in-house counsel will report to the Chief Executive Officer. She added that hiring in-house counsel is not new to the aviation industry, and there exist materials as to establishing an in-house legal department.

Next, Commissioner LTC(R) Wright commented that he would like to understand how the in-house legal department is going to operate before proceeding with authorizing an in-house legal department.

Commissioner Reed then asked Mr. Newman, CEO, if a plan is developed as to the in-house legal department. In response, Mr. Newman informed the Board that by September 2018 JMAA Staff will be ready to go with the in-house legal department.

2. Hawkins Field Terminal Restroom Renovation Project

Next, Commissioner Reed addressed the Board and stated her concerns with the budget amount for the Hawkins Field Terminal Restroom Renovation Project.

The Board of Commissioners, along with Mr. Newman, CEO, then held discussion as to the project as well as the costs. Some of the salient points of that discussion are stated below.

Mr. Newman informed the Board if a Fixed Based Operator (“FBO”) begins operating at Hawkins Field Airport (HKS), the FBO possibly will change the new bathrooms installed by JMAA.

Commissioner Reed then stated that she is reluctant to authorize the amount of the project budget for the HKS restroom renovation project. She asked if the Board would consider delaying the project to begin at a later date in order to revisit the project.
Then Commissioner LTC(R) Wright asked for a description of the proposed $300,000.00 bathrooms. He stated that he agrees with the suggestion to delay the project.

Next, Chairman Pastor Henley stated that he is in favor of proceeding with the Hawkins Field Terminal Restroom Renovation Project previously approved by the Board unanimously. He added that he would like the project to proceed because he is a City of Jackson, MS resident and the upgraded restrooms will benefit the City of Jackson. Further, he stated that if facilities at Hawkins Field are upgraded, more people and groups will use it for activities and events.

Chairman Pastor Henley also stated that the rationale that the traffic at Hawkins Field has not increased; therefore, restroom renovations should not be done is faulty. Additionally, he stated that this rationale was not followed regarding the decision to authorize restroom improvements at JAN. This is because there has been no increase in passengers at JAN, but the restroom improvement project at JAN is moving forward. Continuing, he stated that “improved restrooms will increase passenger traffic at JAN” was the rationale supporting the Board’s decision to improve the restrooms at JAN. Likewise, he submitted, an investment in upgrades at HKS will attract more customers to Hawkins.

Chairman Pastor Henley said that at HKS, there is no investment as to improvements. Instead, the Board is taking money away from HKS and giving it to JAN. As a result, no one is using the HKS facility events, etc. because of the substandard restrooms and other facilities.

In response, Commissioner Reed stated that she is not against HKS, but wants to be cognizant of the funds being spent and how they are spent. She added that the Board should be prioritizing the funds being spent for HKS.
