### DISADVANTAGED BUSINESS ENTERPRISES

#### SPECIAL CONTRACT PROVISIONS FOR CONSULTANT SERVICES

A. DBE POLICY.

It is the policy of the U.S. Department of Transportation (USDOT) and the Jackson Municipal Airport Authority (JMAA) that Disadvantaged Business Enterprises (DBEs) (as such term is used in 49 CFR Part 26) shall have maximum meaningful opportunity to participate in the performance of contracts financed in whole or in part with federal funds. The USDOT (through the Airport Improvement Program administered by the Federal Aviation Administration (FAA)) has agreed to assist in financing the cost of the Work. Consequently, the requirements of 49 CFR Part 26 are hereby made a part of and incorporated into the contract documents.

B. NONDISCRIMINATION.

1. Each Respondent agrees to take all reasonable steps necessary to ensure that DBEs have maximum meaningful opportunity to compete for and participate in the performance of the Services. The Consultant shall not discriminate on the basis of race, color, national origin or sex in the award and performance of contracts financed in whole or in part by JMAA and the U.S. Department of Transportation. The Consultant shall utilize the services of banks in the community, which are owned and controlled by socially and economically disadvantaged individuals when feasible and beneficial.
2. The contractor, sub-recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to withholding monthly progress payments, assessing sanctions, liquidated damages; and/or disqualifying the Contractor from future bidding as non-responsible.

C. DBE GOALS AND GOOD FAITH EFFORTS.

JMAA has established a goal for DBE participation in the Work of **30.00%**. The goal is expressed as a percentage of the original contract amount and will apply throughout the term of the Agreement unless JMAA determines otherwise as provided below.

1. When award is made with DBE participation less than the contract goal, the Consultant shall continue to make good faith efforts throughout the performance of the Work to increase the DBE participation to meet the contract goal.
2. Whenever contract supplements, extra work orders, or change orders are made that individually, or in the aggregate, increase the total dollar value of the Contract, the Consultant shall make good faith efforts to maintain the level of DBE participation as established in the Contract Documents.

Each Respondent shall make good faith efforts (as such term is used in 49 CFR Part 26) to ensure that DBE participation is equal to or exceeds JMAA's goal for such participation and shall take

all necessary and reasonable steps to ensure that DBEs have the maximum meaningful opportunity to compete for and perform portions of the Work.

The DBE Program Office will review not only at the different kinds of efforts that the Respondent has made but also the quantity, quality, and intensity of those efforts. Efforts that are merely pro-forma are not good faith efforts to meet the goal even if they are sincerely motivated. The DBE Program Office will also consider if, given all relevant circumstances, the Respondent's efforts could reasonably be expected to produce a level of DBE participation sufficient to meet the goal.

Whether or not the established goal has been met and /or whether there were sufficient good faith efforts is considered a matter of the Respondent's responsiveness. The requirement to submit documentation that the goal has been met or good faith documentation in the manner prescribed by JMAA is considered a matter of the Respondent's responsiveness. JMAA will only award contracts to Respondents determined to be responsive and responsible. If a Respondent fails to submit good faith efforts documentation with the bid or proposal, it waives the right to appeal the good faith efforts decision. The DBE Director shall determine whether the Respondent made the Required good faith efforts to meet the DBE Contract goal and, if not, shall recommend that the Respondent(s) be deemed non-responsive.

If a Respondent desires a review of the DBE Director's decision it shall file a written request for final reconsideration within 5 business days after receipt of the decision to the Reconsideration Official:

Chief Executive Officer  
P.O. Box 98109  
Jackson, MS 39298

As part of the reconsideration the Respondent will have the opportunity to provide written documentation or argument concerning the issue of good faith. JMAA will only consider good faith efforts made by the Respondent(s) prior to the date Statements of Qualifications were submitted for the Services.

#### D. FAILURE TO COMPLY WITH DBE REQUIREMENTS.

All Respondents and all potential subconsultants, and professional service providers are hereby advised that failure to carry out the requirements set forth herein shall constitute a breach of contract and may result in rejection of the Proposal; termination of the contract; a deduction from the contract funds due or to become due the consultant; or other such remedy as JMAA deems appropriate.

**Failure to comply with the DBE requirements shall include but not be limited to: failure to submit any required documents and certifications with the Statement of Qualifications; or failure to make good faith efforts to meet the established contract goal; failure of the Consultant to meet its commitment for DBE participation in the Services; or failure to maximize opportunities for DBEs.**

#### E. ELIGIBILITY OF DBEs.

A current directory containing the names of firms that have been certified under the Mississippi Unified Certification Program (MUCP) as eligible to participate as DBEs on DOT-assisted contracts may be obtained from the JMAA DBE Program Office or from the Mississippi Department of Transportation (MDOT). The

directory is also available on JMAA's website at <https://jmaa.dbesystem.com/?TN=jmaa> and on MDOT's website at [http://mdot.ms.gov/bidsystem\\_data/bidderspdf/DBE%20Listing.pdf](http://mdot.ms.gov/bidsystem_data/bidderspdf/DBE%20Listing.pdf). **Firms not certified through the MUCP are not eligible to be counted towards the DBE contract goal for USDOT-assisted contracts.**

The directories are not an endorsement of the quality of performance of any Consultant listed; it is only an acknowledgement of the listed firms' certification as DBEs.

Firms certified subsequent to the publication of updates to this directory may be counted toward a project's DBE goal, but only if their certification is active at the time of the Proposal submission. Contractors should contact **Mr. Eric Williams, Director of Procurement** at (601) 360 – 8622 to verify the current status of a firm's certification.

F. COUNTING DBE PARTICIPATION TOWARD DBE GOALS.

1. When a DBE participates in a contract, you count only the value of the work actually performed by the DBE toward DBE goals.
  - a. Count the entire amount of that portion of a construction contract (or other contract not covered by paragraph (a)(2) of this section) that is performed by the DBE's own forces. Include the cost of supplies and materials obtained by the DBE for the work of the contract, including supplies purchased or equipment leased by the DBE (except supplies and equipment the DBE subcontractor purchases or leases from the prime contractor or its affiliate).
  - b. Count the entire amount of fees or commissions charged by a DBE firm for providing a bona fide service, such as professional, technical, consultant, or managerial services, or for providing bonds or insurance specifically required for the performance of a DOT-assisted contract, toward DBE goals, provided you determine the fee to be reasonable and not excessive as compared with fees customarily allowed for similar services.
  - c. When a DBE subcontracts part of the work of its contract to another firm, the value of the subcontracted work may be counted toward DBE goals only if the DBE's subcontractor is itself a DBE. Work that a DBE subcontracts to a non-DBE firm does not count toward DBE goals.
2. When a DBE performs as a participant in a joint venture, count a portion of the total dollar value of the contract equal to the distinct, clearly defined portion of the work of the contract that the DBE performs with its own forces toward DBE goals.
3. Count expenditures to a DBE contractor toward DBE goals only if the DBE is performing a commercially useful function on that contract.
  - a. A DBE performs a commercially useful function when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a commercially useful function, the DBE must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether a DBE is performing a commercially useful function, you must evaluate the amount of work subcontracted, industry practices, whether the amount the firm is to be paid under the contract is commensurate with

the work it is actually performing and the DBE credit claimed for its performance of the work, and other relevant factors.

- b. A DBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, you must examine similar transactions, particularly those in which DBEs do not participate.
  - c. If a DBE does not perform or exercise responsibility for at least 30 percent of the total cost of its contract with its own work force, or the DBE subcontracts a greater portion of the work of a contract than would be expected on the basis of normal industry practice for the type of work involved, you must presume that it is not performing a commercially useful function.
  - d. When a DBE is presumed not to be performing a commercially useful function as provided in paragraph (3)(a) of this section, the DBE may present evidence to rebut this presumption. You may determine that the firm is performing a commercially useful function given the type of work involved and normal industry practices.
  - e. Your decisions on commercially useful function matters are subject to review by the concerned operating administration but are not administratively appealable to DOT.
4. Count expenditures with DBEs for materials or supplies toward DBE goals as provided in the following:
- a. If the materials or supplies are obtained from a DBE manufacturer, count 100 percent of the cost of the materials or supplies toward DBE goals.
  - b. For purposes of this paragraph, a manufacturer is a firm that operates or maintains a factory or establishment that produces, on the premises, the materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications.
    - i. If the materials or supplies are purchased from a DBE regular dealer, count 60 percent of the cost of the materials or supplies toward DBE goals.
    - ii. For purposes of this section, a regular dealer is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment of the general character described by the specifications and required under the contract are bought, kept in stock, and regularly sold or leased to the public in the usual course of business.
      - 1. To be a regular dealer, the firm must be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question.
      - 2. A person may be a regular dealer in such bulk items as petroleum products, steel, cement, gravel, stone, or asphalt without owning, operating, or maintaining a place of business as provided in this paragraph if the person both owns and operates distribution equipment for the products. Any supplementing of regular dealers' own distribution equipment shall be by

a long-term lease agreement and not on an ad hoc or contract-by-contract basis.

- c. Packagers, brokers, manufacturers' representatives, or other persons who arrange or expedite transactions are not regular dealers within the meaning of this paragraph.
- d. With respect to materials or supplies purchased from a DBE which is neither a manufacturer nor a regular dealer, count the entire amount of fees or commissions charged for assistance in the procurement of the materials and supplies, or fees or transportation charges for the delivery of materials or supplies required on a job site, toward DBE goals, provided you determine the fees to be reasonable and not excessive as compared with fees customarily allowed for similar services. Do not count any portion of the cost of the materials and supplies themselves toward BE goals, however.
- e. You must determine the amount of credit awarded to a firm for the provisions of materials and supplies (e.g., whether a firm is acting as a regular dealer or a transaction expeditor) on a contract-by-contract basis.
- f. If a firm is not currently certified as a DBE in accordance with the standards of subpart D of this part at the time of the execution of the contract, do not count the firm's participation toward any DBE goals, except as provided for in 49 CFR Part 26 (26.87(i)).
- g. Do not count the dollar value of work performed under a contract with a firm after it has ceased to be certified toward your overall goal.
- h. Do not count the participation of a DBE subcontractor toward a contractor's final compliance with its DBE obligations on a contract until the amount being counted has actually been paid to the DBE.

#### G. AWARD DOCUMENTATION AND PROCEDURE.

To demonstrate the Respondent's compliance with the DBE participation requirements, all Respondents must comply with the submission requirements outlined in this solicitation. Failure to do so may result in a Statement of Qualifications being determined to be non-responsive.

#### H. POST AWARD COMPLIANCE.

1. If the Agreement is awarded with less than full DBE goal participation, award will not relieve the Consultant of the continuing obligation to exercise good faith efforts to maximize participation of DBEs throughout the term of the contract. Prior to entering into any additional subcontracts for any portion of the Services, the Consultant must submit a request to subcontract to JMAA's Project Manager and JMAA's Director of Disadvantaged Business Enterprises documenting the Consultant's good faith efforts to utilize DBE subcontractors/suppliers prior to entering into a contract with a non-DBE.
2. When the Agreement is awarded on DBE participation in excess of the original stated goal, the Consultant will be required to achieve the DBE participation shown in its Proposal, their DBE commitment, regardless of the goal established by JMAA.

3. The Consultant shall establish a program that will effectively promote increased participation by DBEs in the performance of contracts and subcontracts. The Consultant shall also designate and make known to JMAA's Project Manager and JMAA's Director of Disadvantaged Business Enterprises a liaison officer who will be responsible for the administration of the Consultant's DBE program.
4. The Consultant shall enter into subcontracts or other written agreements with all Subconsultants (DBEs and non-DBEs) identified in the Consultant's Proposal for the kind and amount of Work specified.
5. The Consultant shall keep each DBE informed of the project progress schedule and allow each DBE adequate time to schedule work, stockpile materials, and otherwise prepare for the subcontract Work.
6. At any point during the performance of the Services that it appears the scheduled amount of DBE participation may not be achieved; the Consultant shall provide evidence to JMAA's Director of Disadvantaged Business Enterprises demonstrating how the goal will be met.
7. If the Consultant fails to demonstrate to JMAA's satisfaction that it failed to achieve the scheduled DBE participation due to reasons such as quantitative under-runs or elimination of items contracted to DBEs and that good faith efforts have been used to obtain the scheduled contract participation, JMAA may withhold an amount equal to the difference between the DBE goal and the actual DBE participation achieved as damages.
8. When JMAA has reason to believe the Consultant or any subconsultant (including any DBE) may not be operating in compliance with these requirements through "fronting," brokering, not providing a commercially useful function or for other reasons, JMAA's Director of Disadvantaged Business Enterprise will conduct an investigation. The Consultant, each subconsultant or other involved party will be required to fully cooperate with the investigation. If JMAA determines that any person or entity is not complying, JMAA's Director of Disadvantaged Business Enterprises will notify such person or entity in writing as to the specific instances or matters found to be in noncompliance.
9. To ensure that the obligations under subcontracts awarded to subconsultants are met, JMAA will review the Consultant's efforts to promptly pay subconsultants for work performed in accordance with the executed subcontracts. The prime Consultant agrees to pay each subconsultant under this prime contract for satisfactory performance of its contract no later than five days from the receipt of each payment the prime Consultant receives from JMAA. The prime Consultant agrees further to return retainage payments to each subconsultant within five days after the subconsultant's work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of JMAA. This clause applies to both DBE and non-DBE subconsultants.
10. The Consultant shall provide the DBE with a full accounting to include quantities paid and deductions made from the DBE's partial payment at the time payment is made. Failure to do so without cause may result in an equal amount being withheld from the Consultant on the next payment (progress or final).
11. JMAA reserves the right to withhold any payment from the Consultant if JMAA determines that a DBE is not performing a commercially useful function or that achievement of the goal is in question. Payment may be withheld in the amount of the DBE goal that is in question until either (i) the Consultant submits to JMAA's Director of Disadvantaged Business Enterprises a revised plan for

achieving the Consultant's goal and the plan is approved by JMAA, or (ii) the DBE goal amount in question has been met.

12. JMAA's Director of Disadvantaged Business Enterprises will monitor the Consultant's DBE involvement during the Work, the level of effort by the Consultant in meeting or exceeding the DBE participation goal throughout the performance of the Services. If, at the completion of the Services, the Consultant has failed to meet JMAA's DBE participation goal and has not demonstrated good faith efforts or obtained a reduction of the goal, JMAA may withhold an amount equal to the difference between the DBE goal and the actual DBE participation achieved as damages.
13. Prior to final payment by JMAA, the Consultant shall file with JMAA a detailed list showing each subconsultant, DBE and non-DBE, used in the provision of the Services, the services performed by each subconsultant and the amount paid to each subconsultant. The list shall show the actual dollar amount paid to each DBE for the creditable Services performed, less any rebates, kickbacks, deductions, withholdings, or other repayments made. The list shall be certified under penalty of perjury to be accurate and complete. JMAA will use this certification and other information available to determine if the Consultant has satisfied the DBE contract goal and the extent to which DBEs were fully paid for that Work. The Consultant acknowledges that the information is supplied to obtain payment from JMAA which includes federal assistance from the USDOT.
14. Failure on the part of the Consultant to achieve the DBE participation to which the Consultant committed in the Agreement may result in damages being imposed on the Consultant by JMAA for breach of contract and for non-compliance. If the contract was awarded with less than the original DBE contract goal proposed by JMAA, the revised and lower amount shall become the final DBE contract goal, and that goal shall be used to determine any damages to be assessed. Additionally, JMAA may impose any other administrative sanctions or remedies available at law or provided by the Agreement in the event of breach by the Consultant by failing to satisfy the Consultant's DBE commitment. However, no damages will be assessed, and no other administrative sanctions or remedies will be imposed when, for reasons beyond the control of the Consultant, and despite the good faith efforts made by the Consultant, the final DBE contract goal was not achieved.

#### I. SUBSTITUTIONS OF DBE FIRMS AFTER AWARD.

1. A successful Respondent must not terminate a DBE Subconsultant included as part of its DBE Utilization Plan submitted with the Proposal. This includes but is not limited to instances where a prime Consultant seeks to self-perform the work, have it performed by an affiliate or have it performed by another DBE. The Prime Consultant shall not terminate, substitute, add or replace any DBE subconsultant or change the amount of any work to be performed by any DBE subconsultant except in strict compliance with the requirements of the contract documents. In all instances, the Consultant must seek and secure the prior written consent of JMAA before terminating, substituting, adding, or replacing any subconsultant or changing their scope of work, including DBE subconsultants.
2. Contract activities shown to be performed by a DBE in the Proposal shall be performed by the designated DBE or a substitute approved in advance and in writing by JMAA's Director of Disadvantaged Business Enterprise. Substitution of DBEs will only be allowed for good cause. For purposes of this paragraph, good cause includes the following circumstances:
  - a. The listed DBE Sub-consultant fails or refuses to execute a written contract.

- b. The listed DBE Sub-consultant fails or refuses to perform the work of its subcontract in a way consistent with normal industry standards. However, good cause does not exist if the failure or refusal of the DBE Sub-consultant to perform its work on the subcontract results from the bad faith or discriminatory action of the prime Consultant.
  - c. The listed DBE Sub-consultant fails or refuses to meet the prime Consultant's reasonable, nondiscriminatory bond requirements.
  - d. The listed DBE Sub-consultant becomes bankrupt, insolvent, or exhibits credit unworthiness.
  - e. The listed DBE Sub-consultant is ineligible to work on public projects because of suspension and debarment proceedings pursuant to 2 CFR Parts 180, 215 and 1200 or applicable state law.
  - f. It has been determined by JMAA, that the listed DBE subconsultant is not a responsible Consultant.
  - g. The listed DBE subconsultant voluntarily withdraws from the project and provides written notice of its withdrawal.
  - h. The listed DBE is ineligible to receive DBE credit for the type of work required.
  - i. A DBE owner dies or becomes disabled with the result that the listed DBE Consultant is unable to complete its work on the contract; or
  - j. Other documented good cause that compels the termination of the DBE subconsultant
3. A provision stating the following will be included by JMAA in the contract to be executed by the prime:
- a. That the Consultant shall utilize the specific DBEs listed to perform the specified work and supply the specified materials unless the Consultant obtains written consent from JMAA as provided in this section; and
  - b. That unless JMAA consent is provided as required by this section, the Consultant shall not be entitled to any payment for the specified work or specified material unless it is performed or supplied by the listed DBE.
4. Before submitting a request to terminate and/or substitute a DBE subconsultant, the prime Consultant must give notice to the DBE subconsultant with a copy to JMAA's Director of Disadvantaged Business Enterprises. The notice must include the reason for the request. The DBE must be given five days to respond to the prime Consultant's notice. The response must include the reasons for any objections and why the request should not be approved. The five-day period may be shortened in cases of public necessity (e.g., safety).
5. In addition to post-award termination, the provisions of this section apply to pre-award deletions of or substitutions for DBE firms.
6. When a DBE subconsultant is terminated as provided in this section or fails to complete its work on the contract for any reason, the prime Consultant must make a good faith effort to find another DBE subconsultant to substitute for the original DBE. The good faith effort must be directed at finding

another DBE to perform at least the same amount of work. The good faith effort must be documented by the prime Consultant.

7. In instances prior to execution of a contract between JMAA and prime Consultant and/or prime Consultant and DBE subconsultant, where a DBE that was listed in the bid is unwilling or unable to perform the items of work specified in the Bid Proposal, the Respondent must immediately notify JMAA. If any resulting change would create a shortfall of DBE participation from that previously committed and/or approved in the Proposal, the Respondent shall immediately take steps to obtain another certified DBE to perform an equal amount of allowable credit work or make documented good faith efforts to do so. The new DBE's name and designated work shall be submitted to JMAA's Director of Disadvantaged Business Enterprises for approval. The Respondent's request should consist of the Substitution Form (available from JMAA) and a revised Commitment and Confirmation Form (see Attachment 9). If the Respondent is unable to replace a DBE with another DBE for the applicable work, a good faith effort shall be made to subcontract other items to DBEs in order to sustain the previously committed and/or approved level of DBE participation. JMAA will determine if the Respondent made an acceptable good faith effort in awarding work to DBE firms. JMAA may allow an adjustment of the DBE participation as appropriate, depending on individual project circumstances.

#### J. RECORD KEEPING REQUIREMENTS.

The Consultant shall keep such records as are necessary for JMAA to determine compliance with the DBE contract obligations. These records shall include: the names of subconsultants, including DBEs; copies of all fully executed subcontracts; the type of work being performed; documentation such as canceled checks and paid invoices verifying payment for work, services, materials, supplies and equipment; and documentation of correspondence, oral contacts, telephone calls, and other efforts to obtain services of DBEs. When requested, the Consultant shall submit copies of all subcontracts and other documents and project related items to JMAA's Director of Disadvantaged Business Enterprises. JMAA reserves the right to investigate, monitor and/or review actions, statements, and documents submitted by any Consultant, subconsultant, material men or suppliers.

#### K. REPORTING REQUIREMENTS.

The Consultant shall submit monthly reports on DBE participation to JMAA's Project Manager and JMAA's Director of Disadvantaged Business Enterprises. With each Application for Payment, the Consultant shall submit the Project/Contract Reporting Form (available from JMAA) to JMAA's Project Manager and JMAA's Director of Disadvantaged Business Enterprises to verify actual payments to DBEs since the last Application for Payment. These reports will be required until all subcontracting activity is complete, and the final payment has been made. Reports are required regardless of whether subconsultant activity has occurred since the last Application for Payment.

Upon completion of the Services, and as a condition to final payment, the Consultant shall submit the Project/Contract Reporting Form (marked "Final") to JMAA's Project Manager and JMAA's Director of Disadvantaged Business Enterprises detailing all subconsultant and vendor payments. When the actual amount paid to a subconsultant or vendor is less than the amount indicated in the Agreement, the Consultant must provide a complete explanation of the difference.

If the DBE goal set forth in the Contract Documents has not been met, the Consultant must submit documentation supporting good faith efforts to meet the goal during the performance of the Work. Failure to submit the required reports will result in the withholding of progress payments to the Consultant until the reports are submitted. All payments due subconsultants which affect DBE goal attainment, including retainage, shall be paid by the Consultant before JMAA releases the contract retainage. JMAA reserves the right to conduct an audit of DBE participation prior to processing the Consultant's final payment and at any time during the performance of the Work.

L. DBE PROGRAM-RELATED CERTIFICATIONS MADE BY CONSULTANTS.

If the Respondent makes a written, express disclaimer of one or more certifications or assurances in its Proposal, the Proposal will be considered non-responsive. By submitting a Statement of Qualifications on any project involving USDOT assistance, and by entering into any contract based on that Proposal, the Consultant makes each of the following DBE Program-related certifications and assurances to USDOT and to JMAA:

1. Certification of Knowledge of and Compliance with All DBE Program Terms and Conditions. The Respondent certifies that management and bidding officers have reviewed and understand the bidding and project construction and administration obligations of the USDOT DBE Program regulations at Title 49 CFR Part 26 (as amended) and JMAA's DBE Program rules. The Respondent further certifies that the Respondent's management personnel understand and are familiar with the requirements of these federal and local DBE Program regulations; and if the Respondent was not familiar with or did not understand the requirements of these regulations, they have contacted JMAA DBE Program Office and have been informed as to their duties and obligations under the DBE Program regulations.
2. Certification Regarding Disadvantaged Business Enterprises. The Respondent certifies that the Respondent has complied with the federal and local DBE Program requirements in submitting its Bid Proposal and will comply fully with these requirements in performing any federal-aid contract awarded based on that submission.
3. Certification to Provide Opportunities for DBEs to Participate. The Respondent agrees to ensure that certified DBE firms have a full and fair opportunity to participate in the performance of the Work. The Respondent certifies that all necessary and reasonable steps were taken to ensure that DBE firms have an opportunity to compete for and participate in the Work. The Respondent further certifies that the Respondent has not and will not discriminate on the basis of race, color, age, national origin, or sex in the performance of the Work, or in the award of any subcontract.
4. DBE Contract Goal. The Respondent certifies, under penalty of perjury, that if awarded this federal-aid contract, the Respondent will make good faith efforts to utilize certified DBE firms to meet JMAA's DBE participation goals. The Respondent further certifies the Respondent's understanding that the Respondent may not unilaterally terminate, substitute for, or replace any DBE firm that was designated in its Bid Proposal or the Agreement, in whole or in any part, with another DBE, any non-DBE firm or with the Contractor's own forces or those of an affiliate of the contractor, without the prior written consent of JMAA as set out below.
5. Certification of Good Faith Efforts to Obtain DBE Participation. The Respondent certifies, under penalty of perjury, that a good faith effort was made to obtain DBE participation in this contract, at or above the DBE contract goal. The Respondent further certifies, under penalty of perjury, that if

the Respondent is not able to meet JMAA's specified DBE contract goal, the Respondent has submitted with and as a part of its Proposal, a true, accurate, complete and detailed written explanation of all its good faith efforts taken to meet the DBE contract goal.

6. Agreement and Authorization to Assess Damages. The Respondent understands and agrees that if awarded the contract to perform the Services, the Consultant is legally responsible to ensure that the Consultant and each DBE subconsultant and supplier, comply fully with all regulatory and contractual requirements of the USDOT DBE Program, and that each DBE firm participating in the Services fully performs the designated tasks, with the DBE's own forces and equipment, under the DBE's own direct supervision and management. The Respondent certifies, under penalty of perjury, that if it awarded the contract to perform the Services and if the USDOT or JMAA determines that the Consultant, a DBE or any other firm retained by the Consultant has failed to comply with the DBE Program requirements, USDOT or JMAA shall have the sole authority and discretion to determine the extent of the monetary value to which the DBE contract goals have not been met, and to assess against and withhold monetary damages from the Consultant in the full amount of that breach. JMAA may impose any other remedies available at law or provided in the Contract Documents in the event of a contract breach. The Respondent further understands and agrees that this clause authorizes JMAA to determine and fix the extent of the damages caused by a breach of any contractual or regulatory DBE Program requirement and that the damage assessment will be enforced in addition to, and not in lieu of, any other general liquidated damages clause in the Agreement. By submitting a bid for this federal-aid contract, and by entering into the Agreement, the Consultant irrevocably agrees to such an assessment of liquidated damages for DBE Program purposes and authorizes JMAA to make such an assessment of liquidated damages against the Consultant, and to collect that assessment from any sums due the Consultant under the Agreement, or any other contract, or by other legal process.

**RESPONDENT MUST SUBMIT THIS COMPLETED FORM AS PART OF ITS SUBMISSION.**

**Appendix A to Part 26—Guidance Concerning Good Faith Efforts**

1. When, as a recipient, you establish a contract goal on a DOT-assisted contract for procuring construction, equipment, services, or any other purpose, a bidder must, in order to be responsible and/or responsive, make sufficient good faith efforts to meet the goal. The bidder can meet this requirement in either of two ways. First, the bidder can meet the goal, documenting commitments for participation by DBE firms sufficient for this purpose. Second, even if it doesn't meet the goal, the bidder can document adequate good faith efforts. This means that the bidder must show that it took all necessary and reasonable steps to achieve a DBE goal or other requirement of this part which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.
2. In any situation in which you have established a contract goal, Part 26 requires you to use the good faith efforts mechanism of this part. As a recipient, you have the responsibility to make a fair and reasonable judgment whether a bidder that did not meet the goal made adequate good faith efforts. It is important for you to consider the quality, quantity, and intensity of the different kinds of efforts that the bidder has made, based on the regulations and the guidance in this Appendix.

The efforts employed by the bidder should be those that one could reasonably expect a bidder to take if the bidder were actively and aggressively trying to obtain DBE participation sufficient to meet the DBE contract goal. Mere pro forma efforts are not good faith efforts to meet the DBE contract requirements. We emphasize, however, that your determination concerning the sufficiency of the firm's good faith efforts is a judgment call. Determinations should not be made using quantitative formulas.

3. The Department also strongly cautions you against requiring that a bidder meet a contract goal (i.e., obtain a specified amount of DBE participation) in order to be awarded a contract, even though the bidder makes an adequate good faith effort showing. This rule specifically prohibits you from ignoring bona fide good faith efforts.
4. The following is a list of types of actions which you should consider as part of the bidder's good faith efforts to obtain DBE participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.
  - A. (1) Conducting market research to identify small business contractors and suppliers and soliciting through all reasonable and available means the interest of all certified DBEs that have the capability to perform the work of the contract. This may include attendance at pre-bid and business matchmaking meetings and events, advertising and/or written notices, posting of Notices of Sources Sought and/or Requests for Qualifications, written notices or emails to all DBEs listed in the State's directory of transportation firms that specialize in the areas of work desired (as noted in the DBE directory) and which are located in the area or surrounding areas of the project.

(2) The bidder should solicit this interest as early in the acquisition process as practicable to allow the DBEs to respond to the solicitation and submit a timely offer for the subcontract. The

bidder should determine with certainty if the DBEs are interested by taking appropriate steps to follow up initial solicitations.

B. Selecting portions of the work to be performed by DBEs in order to increase the likelihood that the DBE goals will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units (for example, smaller tasks or quantities) to facilitate DBE participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces. This may include, where possible, establishing flexible timeframes for performance and delivery schedules in a manner that encourages and facilitates DBE participation.

C. Providing interested DBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation with their offer for the subcontract.

D. (1) Negotiating in good faith with interested DBEs. It is the bidder's responsibility to make a portion of the work available to DBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, so as to facilitate DBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of DBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional Agreements could not be reached for DBEs to perform the work.

(2) A bidder using good business judgment would consider a number of factors in negotiating with subcontractors, including DBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using DBEs is not in itself sufficient reason for a bidder's failure to meet the contract DBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the bidder of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from DBEs if the price difference is excessive or unreasonable.

E. (1) Not rejecting DBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union status) are not legitimate causes for the rejection or non-solicitation of bids in the contractor's efforts to meet the project goal. Another practice considered an insufficient good faith effort is the rejection of the DBE because its quotation for the work was not the lowest received. However, nothing in this paragraph shall be construed to require the bidder or prime contractor to accept unreasonable quotes in order to satisfy contract goals.

(2) A prime contractor's inability to find a replacement DBE at the original price is not alone sufficient to support a finding that good faith efforts have been made to replace the original DBE. The fact that the contractor has the ability and/or desire to perform the contract work with its own forces does not relieve the contractor of the obligation to make good faith efforts to find a

replacement DBE, and it is not a sound basis for rejecting a prospective replacement DBE's reasonable quote.

- F. Making efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance as required by the recipient or contractor.
- G. Making efforts to assist interested DBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.
- H. Effectively using the services of available minority/women community organizations; minority/women contractors' groups; local, State, and Federal minority/women business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of DBEs.
- I. In determining whether a bidder has made good faith efforts, it is essential to scrutinize its documented efforts. At a minimum, you must review the performance of other bidders in meeting the contract goal. For example, when the apparent successful bidder fails to meet the contract goal, but others meet it, you may reasonably raise the question of whether, with additional efforts, the apparent successful bidder could have met the goal. If the apparent successful bidder fails to meet the goal but meets or exceeds the average DBE participation obtained by other bidders, you may view this, in conjunction with other factors, as evidence of the apparent successful bidder having made good faith efforts. As provided in §26.53(b)(2)(vi), you must also require the contractor to submit copies of each DBE and non-DBE subcontractor quote submitted to the bidder when a non-DBE subcontractor was selected over a DBE for work on the contract to review whether DBE prices were substantially higher; and contact the DBEs listed on a contractor's solicitation to inquire as to whether they were contacted by the prime. Pro forma mailings to DBEs requesting bids are not alone sufficient to satisfy good faith efforts under the rule.
- J. A promise to use DBEs after contract award is not considered to be responsive to the contract solicitation or to constitute good faith efforts.

### BUY AMERICAN PREFERENCE

#### Certificate of Buy American Compliance for Manufactured Products

The Contractor agrees to comply with 49 USC § 50101, which provides that Federal funds may not be obligated unless all steel and manufactured goods used in AIP funded projects are produced in the United States, unless the Federal Aviation Administration has issued a waiver for the product; the product is listed as an Excepted Article, Material Or Supply in Federal Acquisition Regulation subpart 25.108; or is included in the FAA Nationwide Buy American Waivers Issued list.

A bidder or offeror must complete and submit the Buy America certification included herein with their bid or offer. The Owner will reject as nonresponsive any bid or offer that does not include a completed Certificate of Buy American Compliance.

#### CERTIFICATE OF BUY AMERICAN COMPLIANCE FOR TOTAL FACILITY

As a matter of bid responsiveness, the bidder or offeror must complete, sign, date, and submit this certification statement with its proposal. The bidder or offeror must indicate how it intends to comply with 49 USC § 50101 by selecting one of the following certification statements. These statements are mutually exclusive. Bidder must select one or the other (i.e. not both) by inserting a checkmark (✓) or the letter "X".

- Bidder or offeror hereby certifies that it will comply with 49 USC § 50101 by:
- a) Only installing steel and manufactured products produced in the United States; or
  - b) Installing manufactured products for which the Federal Aviation Administration (FAA) has issued a waiver as indicated by inclusion on the current FAA Nationwide Buy American Waivers Issued listing; or
  - c) Installing products listed as an Excepted Article, Material or Supply in Federal Acquisition Regulation Subpart 25.108.

By selecting this certification statement, the bidder or offeror agrees:

- To provide to the Owner evidence that documents the source and origin of the steel and manufactured product.
  - To faithfully comply with providing U.S. domestic products.
  - To refrain from seeking a waiver request after establishment of the contract, unless extenuating circumstances emerge that the FAA determines justified.
- The bidder or offeror hereby certifies it cannot comply with the 100 percent Buy American Preferences of 49 USC § 50101(a) but may qualify for either a Type 3 or Type 4 waiver under 49 USC § 50101(b). By selecting this certification statement, the apparent bidder or offeror with the apparent low bid agrees:

- a) To submit to the Owner within 15 calendar days of the bid opening, a formal waiver request and required documentation that supports the type of waiver being requested.
- b) That failure to submit the required documentation within the specified timeframe is cause for a non-responsive determination that may result in rejection of the proposal.
- c) To faithfully comply with providing U.S. domestic products at or above the approved U.S. domestic content percentage as approved by the FAA.
- d) To furnish U.S. domestic product for any waiver request that the FAA rejects.
- e) To refrain from seeking a waiver request after establishment of the contract, unless extenuating circumstances emerge that the FAA determines justified.

**Required Documentation**

**Type 3 Waiver** – The cost of components and subcomponents produced in the United States is more than 60 percent of the cost of all components and subcomponents of the “facility”. The required documentation for a Type 3 waiver is:

- a) Listing of all manufactured products that are not comprised of 100 percent U.S. domestic content (excludes products listed on the FAA Nationwide Buy American Waivers Issued listing and products excluded by Federal Acquisition Regulation Subpart 25.108; products of unknown origin must be considered as non-domestic products in their entirety).
- b) Cost of non-domestic components and subcomponents, excluding labor costs associated with final assembly and installation at project location.
- c) Percentage of non-domestic component and subcomponent cost as compared to total “facility” component and subcomponent costs, excluding labor costs associated with final assembly and installation at project location.

**Type 4 Waiver** – Total cost of project using U.S. domestic source product exceeds the total project cost using non-domestic product by 25 percent. The required documentation for a Type 4 of waiver is:

- a) Detailed cost information for total project using U.S. domestic product
- b) Detailed cost information for total project using non-domestic product

**False Statements:** Per 49 USC § 47126, this certification concerns a matter within the jurisdiction of the Federal Aviation Administration and the making of a false, fictitious or fraudulent certification may render the maker subject to prosecution under Title 18, United States Code.
